

The Village of Northfield

REGULAR COUNCIL MEETING

August 13, 2014

The meeting was called to order by Mayor, Jesse J. Nehez at 7:30 p.m.

PLEDGE OF ALLEGIANCE was recited.

ROLL CALL was read by Lisa Rodriguez, Clerk of Council. The following were present: Mayor Nehez, Beatrice Greenlee, Linda Bowen, Nicholas Magistrelli, Gary Vojtush, Alan E. Hipps and Ethan Miladinovic. In addition, Law Director, Brad Bryan, Village Engineer Richard Wasosky, Village Police Chief Mark Wentz, Service/Bldg./Zoning Superintendent Jason Walters and Finance Director Tim Clymer was also present. Village Fire Chief Jason Buss was not in attendance. Jason walked into the meeting at 7:32p.

APPROVAL OF MINUTES:

A motion for approval of the July 23, 2014 minutes was made by Beatrice Greenlee and seconded by Linda Bowen, passed with 5 ayes, 1 nay from Gary Vojtush. He stated that the minutes were typed off of handwritten notes due to a malfunction with the recorder, so it isn't a full record of the minutes.

PRESENTATION OF PETITIONS, MEMORIALS AND REMONSTRANCES:

Mr. Buzalewski resident of 9422 Cranbrook asked whose responsibility it is for the grass and sidewalk on Route 8. Jason Walters stated that sidewalk reminder letters went out two days prior about it being the property owners responsibility to maintain. Mr. Buzalewski asked who is responsible for snow on the sidewalks on Route 8, Jason said that it was the property owners responsibility and they have 10 days to respond and they usually respond pretty quickly.

Mr. Bob Lanese resident of 119 Vincent stated that he is the "ignorant" resident per Alan Hipps and also the "hated" resident of Vincent Ave., per Mayor Nehez and Chief Wentz. Bob stated that he has come to this council meeting tonight disgusted. Bob stated that this administration promised him that there would not be any more video taping of his children in his yard by his neighbor, and the Sheriff was to be utilized in the Village and more beautification and none of this has happened. Bob said instead Council passed an Ordinance to not ride ATV's. He stated that he was informed by Chief Wentz and Officer Zajac that he was able to ride, then over the next couple days officers showed up and changed laws each time, to ride within a . Bob stated it is a violation of his rights and obviously the police can do whatever they want since Mayor Nehez is in Hudson the majority of the day. Bob also discussed about how slow the response time is of the Village police on a 911 call for a drunk driver, and when the police finally arrived they yelled and said they were at Northfield Village. Chief Wentz stated that he spoke with the officers and that Bob told the officers he had 1 acre of property. The officers told Bob that if he has an acre of property he can ride his ATV and if it is fenced in.

Chief Wentz read from the dispatch report for that call 11:08pm and stated that it took less than a minute to respond. The officers knew what they were looking for when they left, and knew that the ambulance was called for mutual aid. Officer asked dispatch if the complainant wanted to see an officer, and dispatch said no. Bob stated that the car came from the Rocksino, Chief Wentz stated that the car did not come from the Rocksino. Chief Wentz stated that Bob verbally assaulted the officers when they did arrive, it was a hit-skip and the officers made the arrest of the gentleman at his home in Sagamore Hills.

Chief Wentz stated that regarding the camera issue Bob had spoke about pointing on his house. The cameras captured part of the house and part of the driveway. The neighbor put up those "dummy" cameras to deter vandalism, they don't work and they don't film.

Resident of May Ave., Matt Golias asked Chief Wentz if the neighbor could change the light to a regular bulb. Chief Wentz stated that he cannot make a resident change a bulb in their lighting system. Matt stated that the officer came out and made him remove the squiggly bulb and put in a regular bulb. Matt asked Mr. Vojtush if he had anything to say about the situation. Gary stated that he would say the same thing he told Mrs. Golias, that he has rode his motorcycle up and down the road going from west to east on the south side of the street and was momentarily blinded and couldn't see anything going down the hill. Chief Wentz stated that they have gone over this situation numerous times and it is unfortunate the way the houses are situated with her on the top of the hill and Matt is on the bottom of the hill. Chief Wentz stated that the light is pointed straight down now, and he has been driving the street up and down trying to activate the motion sensor light and it activate. Mrs. Golias stated to Chief Wentz that he stated to the previous Mayor Victor Milani, that he doesn't care about the situation that he only has two more years of time here. Chief Wentz stated that he never said that.

Jim Szabo, member of the Nordonia Hills Board of Education introduced himself and opened himself up for any questions anyone had regarding the schools and the school district.

Tim Walters, resident of 9104 Cranbrook Dr., thanked Jason Walters and his department for the sewer work that was so promptly fixed and patching of the road. He said that Jason and his departments do a wonderful job with what they are given. Mr. Tim Walters asked where Council and Engineer stood on the plans for the reconstruction of Cranbrook. Rich Wasosky stated that the soil bore company stated that they are busy and can't come out until September. Rich stated that this job will be bid in January 2015 and work won't start until March 2015, because the contractor won't come out until the asphalt plant opens in March. Rich stated that doing the Cranbrook project is his recommendation to Council. Brad Bryan stated that the cost of this project is 1/5th of the Village budget. Tim Walters asked if the 15yr plan for Village street reconstruction was to be posted. Mayor Nehez asked Lisa Rodriguez if she could get this and put online, Lisa stated yes.

Vicky Salsbury, a 18 yr resident of 319 Ledge Rd., spoke regarding the ATV ordinance. Vicky stated that 99% of the "all" in the Pledge of Allegiance Village was let down on July 9, 2014 along with her family who is included in the 99%. Vicky stated that her home is one of 12 other residents in the Village who have one acre or more of land. Vicky stated how her home is a dark jail cell as of when the ordinance was passed. Vicky stated how her son Austin does not participate in football, baseball or basketball but rides motocross and has for 11 years. She stated how she and her husband both work full time jobs and pay taxes, are not a drain on society, raise their son with old school ethics, when the work is done then it is play time. Vicky stated that our community is not implementing the same values that she and her husband are instilling in their son and Austin cannot play with any of his toys he has purchased with his own money. She said that they ride for 20 minutes maybe three days each week, and do not have a dust problem. Vicky said that former Mayor Consolo would enjoy watching Austin ride, she understands that there are always a few bad eggs in a bunch, but stated that there has to be a compromise. Vicky stated that the way the ordinance currently reads, Austin can't even take a 10 second ride on his bike around the yard to see if the work his dad performed is ok, which as a mother that scares her. Vicky stated that she has an open door policy if any would like to be educated about these vehicles with regards to size, cc's or noise, anyone could see any member of her family. Vicky stated that no one who voted or vetoed this ordinance ever knocked on her door and asked questions about these vehicles, the only time she will ever seen anyone is when they are campaigning to put a sign in her yard.

Spencer Salsbury, a 18 yr resident of 319 Ledge Rd., spoke about ATV ordinance. Spencer stated that one of the main reasons for this ordinance was due to the noise, so he went online to the Clean Air Yard Source. Spencer stated facts from the website: electric lawnmower is 75db, gas powered lawnmower is 100db, gas powered leaf blower is 105db and a car horn is 110db. Spencer stated that everyone agrees that everyone cuts their grass by themselves or by a service and they use a commercial mower like a Hustler Super Z and 110db that the service departments use. Spencer stated that the average decibel for a off road vehicle is and he stated that a Yamaha averages 87-100db, and about 99% are 88-90db, which is about 10-15db quieter than the service departments lawn mower. Spencer stated that now knowing all of this information, he feels there is a terrible

noise problem in the village and it needs taken care of. Lawn mowers and yard maintenance equipment are louder than off road motorcycles and ATV's. He said that some people do make them louder with different exhausts, but for those that don't it is unfair. Spencer stated that he was told there are 12 properties in the Village that roughly have an acre, and there is a small percentage that could ride if the yard was fenced in how it is supposed to be, but he does agree that he doesn't want to hear it all day and all night either. Spencer asked Council if they could revise the ordinance and come up with something that everyone could have a little fun here and there, and make everyone happy. Spencer asked how the lot size was determined. He said also in the ordinance you can't ride within 30' of the road, so some other safety concerns should be discussed such as children riding bikes, scooter or even playing in a swimming pool closer than 30' to the road in their front yards. Spencer stated that Council needs to pass more ordinances for noisy lawn equipment and being too close to the street, or children playing too close to the street. Spencer asked Council to reconsider maybe the time frames, and at their house they didn't ride every day all day.

Vicky Salsbury asked Council if they would revisit the ordinance and when? Mayor Nehez stated that he personally is not ready tonight. Alan Hipps stated that he does understand sound ratings and decibels in his job. Vicky asked if they could ever get from the police how many kids radios are loud as compared to a complaint on one person with a off road vehicle. Chief Wentz said that he would check into that and Ethan Miladinovic said he would like to sit in on the discussions as well. Vicky asked if everyone agreed that residents can cut there grass from 8a-9p, Brad said yes. Vicky asked Council if they are going to have a work session, that no one would answer. Alan stated that they do not predetermine what they are discussing, if there is something that will be done and an agreement for a work session has to be agreed upon by everyone.

Phil Kneziak, resident of the Village thanked Jason Walters, Chris While and the whole service department and Rich Wasosky for putting the catch basin and fixing it, they are great guys and were there in a minute. Phil asked if he could still use his four-wheeler for yard work? Alan Hipps and Beatrice Greenlee both stated yes.

Jack Morgan, resident who lives at 55 Chestnut Ave., Jack asked Alan Hipps where he got the information from about ATV riders clogging the sewers up and the service department had to clean them out. Jack told Alan that is false information and the service department never cleans the sewers. Alan stated that it increases the frequency. Jack said that Alan told him over the phone personally that the service department had to clean out the sewers. Alan stated that the ATV's cause erosion. Jason Walters stated that the service department vactored those sewers last spring. Jack stated that he doesn't believe it, Jason said he didn't care what Jack believed, they were vactored in the spring. Alan stated you believe what you want, and Jack stated he doesn't believe Alan. Jack said he heard you can use ATV's for yard work, then he heard someone got a ticket. Mayor Nehez asked Chief Wentz if they had a call on that and it was true? Chief Wentz said absolutely not. Mr. Morgan stated that around 4th of July the neighbors called to complain about the noise. Alan stated that the reason the neighbors didn't complain before is that nothing could be done prior to the ordinance. Jack said to follow the State of Ohio laws. Alan stated that ATV's cause erosion next to the street and tears away the burming material, it allows water to allow the edge of the asphalt. Jack said that he doesn't see how anyone can trust anything Mr. Hipps says. Alan stated that he isn't against ATV's, he enjoys riding them, he has owned them and personally worked on them, what Alan said he has a problem with is nuisance riding. Alan stated to Vicky Salsbury that how they ride is to test drive the vehicle for racing. Vicky said they also do ride for enjoyment, she has a couple 50cc bikes. Gary stated that if Alan was just against nuisance riding, why did he put the ordinance for everyone that owned one. Alan stated that he wanted it just so it was 30' away from motor vehicles. Spencer then stated that he could cut his grass at 13mph with a commercial mower from 8am-9pm daily and never shut the vehicle off and run his backpack blower. Alan stated that you can't take a gun out in your backyard and shoot it. Vicky asked if there had been any deaths in the Village from ATV's and Gary Vojtush stated that there has not been even one accident. Alan stated you can't build a shed on your property within one foot of your property line. Gary stated yes, but you can still build one. Alan stated that you wouldn't get a permit and it is in violation of Village Ordinance. Vicky said that Council is the residents voice.

Pam Morgan resident of 55 Chestnut Ave., has three ATV's that her husband and children enjoy. She has four lots, doesn't have one acre that they own by themselves, so she doesn't understand who would have an acre in the Village. There should be some compromise Pam said. She feels that everyone should compromise regarding the ATV ordinance. She said she does understand that there are some bad people, but we all need to compromise. Pam said that she knows of neighbors who have their TV is too loud or a crying baby, people need to act like adults and talk to each other.

Anita Swensen resident of 146 Huntington asked if she was allowed to use her plow on her ATV to plow snow in her driveway within 30' of the road when Jason Walters men aren't able to plow it when they were doing the Village roads. Alan and Mayor Nehez told Anita that yes she was able use the ATV for yard maintenance. Anita asked Chief Wentz about her parking her car in front of her house on the grass when she moving items back into her house and a village officer told her to move her car and make sure she put her seatbelt on. Anita said that if she wants to put an officer in front of her door 24/7 then go ahead, because she isn't going to stop parking there because it is considered her driveway. Anita also stated how she hasn't been here in the Village for two years and is upset about things that are happening in the Village. If I want to ride my ATV around my yard, I don't need to put a 6' fence up around my yard, and Jason had told her that Council was going to review and revise and she would like a copy at that time of the ordinance.

Michele Walters sister of Vicky Salsbury stated that she saw children in Rolling Hills riding their ATV and her nephew can't do this any more. Michele feels that there needs to be a compromise, maybe change in restrictions of the hours. Mayor Nehez said to Michele how much her husband Jason Walters is appreciated and he appreciates all of the work that he does for the Village. Michele stated that there needs to be a compromise for safety and noise.

REPORTS OF MUNICIPAL OFFICERS:

Zack Frymier, Public Utilities Commission of Ohio spoke regarding resources online at their website for choosing a gas and electric supplier at www.energychoice.ohio.gov. Zack stated that residents can use this resource online to help with gas and electric choices and offers available. Village of Northfield is part of NOPEC. Mayor Nehez asked Lisa Rodriguez to put the information regarding PUCO on the Village website.

A. MAYOR JESSE J. NEHEZ reported that he has been working with Beatrice Greenlee, and Council and service department on beautification along Route 8. Mayor reports that he has had discussions with Jason Walters about getting more flags per residents requests. Mayor stated that the building tearing down the building next door to the Village Hall and turning it into a park for residents until they decide what to do with that property. Mayor Nehez stated that this is a step towards beautifying Route 8 and all of the equipment purchased for the park is movable. Mayor Nehez stated that he has had discussions with Jason Walters about his department sandblasting the fire hydrants and repainting those as well on Route 8.

The Recreation board plans to setup Christmas and Easter programs for the residents and maybe a movie night in the park for the residents once a month. Mayor Nehez said that Linda Bowen has been looking into these types of programs for the residents.

Gary Vojtush asked if it will cost more than the \$20,000.00 to demo that building that was approved, what is the cost for the park that will be placed there. Mayor Nehez stated that they are still looking into that, and have a price for a gazebo with prices between \$3,000.00-\$5,000.00. Gary said what actual plans for the park. Mayor Nehez said that they are just looking into putting trees, shrubbery and a couple benches. Gary asked if anyone has considered safety measure on the Route 8 side. Mayor Nehez stated yes they will be eliminate that driveway coming in. Tim Clymer stated that they appropriated \$20,000.00 for demo of that property and the quote came in the low \$18,000's, so there is a little bit of a buffer appropriated for the trees and benches or

whatever may be done there. Gary said but that \$20,000 was just for demo, it didn't cover benches or trees. Tim said no, just the building.

B. FINANCE DIRECTOR TIM CLYMER had no report. Gary Vojtush asked Tim about administrative code 230.1 – monthly financial statements are supposed to be distributed monthly, and knows that Tim is new to the position but Gary asked Tim when he thought he would start distributing these on behalf of the Mayor. Tim stated that he goal is around two months. Gary thanked Tim.

Ethan Miladinovic asked Tim with the anticipated carryover, did he foresee any problem with them being able to fit Cranbrook into next year. Tim stated that it depends on what the cost of Cranbrook project is. Gary said that last meeting they couldn't approve to do the sidewalks on Ledge, and now this meeting we are going to approve \$70,000 or \$80,000 for a road. Brad Bryan questioned Gary, “last meeting we couldn't approve a sidewalk”? Brad said we didn't have a price, how would you approve a job for a sidewalk. Gary stated that he had a verbal estimate on a sidewalk between \$20,000-\$25,000. Brad stated that Jason Walters and Richard Wasosky are going to address that issue. Gary stated that he asked Tim how he felt to handle the sidewalk project, and Tim said he wasn't comfortable with that. Jason Walters stated to Gary that if they were talking about just concrete, then yes it would be \$20,000-\$25,000. Brad told Gary to say that Council didn't approve the sidewalk, was completely unfair, the sidewalk is being looked into by Jason and Rich but isn't ready for Council. Tim said if they have \$750,000 carryover, and they can afford it, and the budget for next year has a surplus and it can be afforded, then yes. Tim said he can't give a definite answer right now, but if income taxes are up next year, then the Village should be able to take on a project of that skill.

C. ENGINEER RICHARD WASOSKY, gave his report (See attached) Alan Hipps stated that the resident at 49 Houghton Rd., stated that she had apron damage from equipment. Rich stated he would look at the video that was taken prior to the project starting.

Gary asked Rich why we did not get the grant for the sidewalks. it just depends on how many apply. Gary asked if they gave us something that stated that information. Rich said no, that so many apply, the school district here applies and we back them.

Gary asked Rich if Cranbrook had to be remarked since the survey was done a year ago. Rich said that these were intersection details, and they finished the last couple last week, so that is finished.

Gary asked if Rich saw any further expenses over the \$750,000 estimate for the Cranbrook project. Rich stated that there are always two things is depends on; oil and aggregate prices and how busy contractors are at that time.

Gary said his concern was the same as the Summit Rd. project, where we used too large of equipment and it cost us a couple thousand dollars more to fix what they did with the wrong equipment. Rich said it wasn't the wrong equipment. Gary apologized and said too heavy of equipment. Rich said that with the excavator they had to dig down over 20', Jason said some areas over 21'. Rich said that with Cranbrook we won't have that problem. Jason said that they tried to save the road and it wasn't the greatest material under the road, and that was the only type of equipment to do that type of job.

D. LAW DIRECTOR BRADRIC BRYAN, reported that the Mayor asked him to clarify on the Casino Operators Settlement Fund money. Mr. Tim Walters requested about how the money is to be spent that the Village has received. The finance director stated that the way the legislation from the state is set up is that there was no requirement for the money to be in a separate fund, it was allowed to put the payment to the general fund and we were allowed to spend it for regular general fund issues. The only restriction on that money was that 50% was to be on infrastructure, which necessarily wasn't restricted to the race track, but we needed to do some sort of work related to the race track, because it was an issue if we were going to receive the second payment. Brad said to keep in mind that every single dollar Council spends has to be approved by council and every thing the Village spends and budgets for is public record and residents can know where there tax dollars are going. He stated that this is different from the TIFF money. This is essentially for 30 years, once the Rocksino property with the improvements will be re-evaluated by the county and the increase in real property

taxes from what it was approved at, it allows us to get paid directly the counties portion of the taxes. The schools get 60% of the money and the Village gets about 18% of the taxes and the rest goes to the county. Brad stated that the Village will not get that money until maybe the end of 2015 or beginning of 2016 and has to be put in a restricted fund and can only be used for expenses that the Village has incurred during the building of the Rocksino. The TIFF ordinance specifies specific uses for that money, and we will be able to pay back the general fund from the TIFF fund, if the general fund was expended of work that was to get ready to confront with the Rocksino.

Mayor Nehez felt it was really important for residents to understand the difference between the million dollars and the TIFF money. Brad stated that under the state there are tight restrictions for the TIFF.

E. DEPARTMENT HEADS:

1. Police Department, Chief Mark Wentz, had no report. Let Mayor Nehez know that the police department received a thank you letter from The Rotary Club of Nordonia for the officers helping with safety town. Ethan Miladinovic asked Chief Wentz about that the squatter on Heights. Jason Walters stated that he spoke with the gentleman and isn't considered a squatter. The prior owner rented him the house and has a somewhat agreement and the bank has set him up with a relocation agreement. He said that man will be out by August 28th. Chief Wentz stated that there was also a second property where there was someone staying in the loft of the garage. Ethan stated he has never seen anyone, and asked if it was foreclosure. Chief Wentz stated that he hasn't seen anyone either. Jason stated that it is a foreclosure and until someone shows up to remove you from the home, you can live in there for years. Brad said that sometimes the bank prefer someone living there.

2. Fire Department, Fire Chief Jason Buss, was absent and will attend the Council meeting of August 27, 2014.

3. Service/Building Supervisor, Jason Walters, gave his report. (See attached) Mayor stated that we pay cash for all of our roads projects. Jason said that all of the big projects were based on the village receiving the \$500,000. This information needs to get out to the residents so they understand why we just can't go and do these road projects so easily. Gary said that when they started the project for Cranbrook we didn't have the Hard Rock here. Jason stated no, but we knew that it was coming. Jason said that we knew we were getting the \$2 million dollars and the \$500,000. Gary said and now that we are not getting the \$500,000 but we are getting the \$500,000 for the TIFF money. Brad stated that it isn't able to be used unless it is directly related to the racetrack. Jason and Mayor stated that there is no guarantee for how much the Village will get. Brad stated the large cities collect the gambling revenues. Brad said that small towns like ours, it goes to the lottery commission. Jason told resident Tim Walters that a year ago they were counting in these monies for the Cranbrook project.

Ethan Miladinovic asked Jason if the demolition of the building next door would be one day, and Jason stated that yes the contractor thinks so.

Jason said that he feels he has a lot of input that would help the ATV ordinance if Council was willing to reopen the issue.

Jason stated that he has heard residents talking about an ATV track, and he stated that is just not possible. Years ago they had Jason look into a skate park and it was not possible. Brad stated that he spoke with our insurance agent and risk wise was not feasible. Brad said that we pay about \$30,000 in insurance for the whole Village, but a policy like that to cover serious bodily injury would be around \$50,000 for that type of environment, and the deductible would be about \$100,000. Brad stated that once you start charging a fee it is a government owned function. Jason stated that you can get into a lot of issues with that.

Beatrice Greenlee thanked Jason for speaking about the money situation.

Gary Vojtush asked Jason if his departments had summer help or are all of the guys part time guys. Jason said no summer help.

Gary said that with the beautification all around the Village he has been driving around the Village and said there are about 100 signs on N. Plaza drive that need painted, straightened or replaced. Jason asked Gary if he

meant poles. Jason stated that we don't paint signs, we replace them. Gary stated yes he meant poles. Jason told Gary if he approved that request he would do that immediately. Gary said he wouldn't approve that at this moment. Gary stated that there is a sign at end of Birch at a 45 degree angle. Chief Wentz stated that was the sign that was hit. Gary stated that sign has been bent over for quite some time. Jason stated that it is not the one on Birch then, must be a different sign. Jason asked Gary which sign is it that is bent for quite some time. Gary said he didn't know and would have to look and get a list to him of all of the signs. Jason stated that Alan Hipps has already given him a list of signs from his ward that need fixed, but Jason said they are trying to get the road patching done first. Gary said that he has only driven the east side of Northfield. Jason asked Gary which signs needed fixed. Gary stated it would be great if the poles got painted them. Jason said that he is going to start to use galvanized poles. Jason stated again that Mayor Nehez does want all of the signs replaced, but that will cost money. Jason stated Mayor Nehez and Beatrice Greenlee have all given Jason a list of the streets that need attention, but he has roads that have to be placed as priority and sewers also. Gary stated that he spoke with Beatrice Greenlee and she told him that Jason had an employee that was going to resign and now is working a second shift cleaning job here. Beatrice told Gary that she never said that, that Gary called her and told her that information. Gary asked Jason if this employee was working a second shift and Jason stated yes but no one was going to resign. Mayor Nehez stated he has no resignation letters on his desk. Jason stated that the employee has worked here since 2006 and he isn't second shift, he comes in when Jason needs him and starts at 2pm.

REPORTS OF MUNICIPAL BOARDS AND COMMISSIONS:

A. PLANNING COMMISSION, ALAN E. HIPPS, had no report and stated there will be no meeting for August.

B. RECREATION BOARD, MAYOR NEHEZ, stated his report previously with the Mayor's report.

REPORTS OF STANDING COMMITTEES:

FINANCE: LINDA BOWEN, reported that the next Finance meeting will be August 27, 2014 at 6:30pm.

ROADS/PUBLIC WORKS: ETHAN MILADINOVIC had no report.

HEALTH AND WELFARE: GARY VOJTUSH, had no report.

BUILDINGS & GROUNDS: ALAN HIPPS, had no report.

WAGES AND WORKING CONDITIONS: NICHOLAS MAGISTRELLI had no report.

FIRE AND SAFETY: BEATRICE GREENLEE had no report.

LEGISLATION:

Brad read Resolution 2014-43, an emergency Resolution authorizing the Mayor to enter into the 2014-2015 Summit County Intergovernmental memorandum of understanding for job creation and retention and tax revenue sharing. Brad stated this is absolutely something Council should pass to receive the 5 more points. A motion to suspend the three reading rule was made by Beatrice Greenlee and seconded by Linda Bowen and carried with 6 ayes. A motion for passage was made by Beatrice Greenlee and seconded by Linda Bowen and passed with 6 aye votes.

Brad read Resolution 2014-44, an emergency Resolution directing the certification of delinquent grass, weed cutting and property clean up bills to the county fiscal officer for placement on the tax duplicate. Brad stated

that this must be passed and submitted to the county by the end of the month. A motion to suspend the three-reading rule was made by Beatrice Greenlee and seconded by Alan Hipps, carried with 6 ayes. A motion for passage was made by Beatrice Greenlee and seconded by Ethan Miladinovic and passed with 6 aye votes.

OLD BUSINESS; None

NEW BUSINESS; Ethan Miladinovic stated that there were some residents that said they can't hear Council when they speak, so he got a package of material to add some microphones and pa system so that everyone may be heard. Gary Vojtush also stated that they will look into a non-battery operated recording system, maybe that records onto a dvd so that may be put onto the website so that people who aren't able to attend the Council meeting would be able to view the video online. Mayor Nehez agreed.

Mayor Nehez asked Lisa Rodriguez to put the legislation also online with the agenda each Council meeting, so that people are able to view legislation along with the agenda if they would like to attend a meeting or see what they will be discussing.

Mayor asked Ethan what the cost would be for the system. Ethan stated that these are preliminary numbers and right now the base is just \$2,700.00, but with fancy recording equipment it would be around double. Mayor asked Ethan to get the costs. Ethan said he will contact the supplier.

ANNOUNCEMENTS;ADJOURNMENT -

A motion for adjournment at 9:56 p.m. was made by Alan Hipps and seconded by Ethan Miladinovic and passed with 6 ayes.

Respectfully submitted by:

Attest:

Beatrice Greenlee
President of Council

Lisa M. Rodriguez
Clerk of Council
